

NEW BEDFORD AIR QUALITY PROGRAM

ADDS NEW TECH! ULTRA FINE PARTICLE (UFP) SENSORS

3-UFP SENSORS HAVE BEEN ADDED TO THE
EXISTING 20-AIR QUALITY SENSOR NETWORK
THAT NOW HAS REACHED ITS
2-YEAR ANNIVERSARY OF DATA COLLECTION.

NEW BEDFORD IS PROUD TO REPORT THAT
OUR AIR QUALITY IS GOOD. WE ARE
FORTUNATE, AND WE NEED TO KEEP IT THIS
WAY. THE ONLY WAY TO KEEP CLEAN AIR IS TO
KNOW WHERE WE STARTED. THIS
OPPORTUNITY TO STUDY OUR AIR QUALITY
WITH STATE OF THE ART MONITORS IS KEY TO
LIGHTING THE WAY FOR OUR FUTURE.
